Nowadays, counseling is not only for women. It is “men” who really need counseling to heal the stresses that originate in their workplace and human relationships. If you have a concern that you don't feel comfortable sharing, such as depression, being discouraged, feeling sluggish, worries about relationships, difficulty sleeping, a lack of confidence while speaking, being self-conscious about your appearance, difficulties relating to the opposite sex, strong pressure from family or relatives, physical pain, sexual problems, voice problems, living with a chronic disorder, a condition that cannot be cured by medicine, being a shut-in, etc. Please don't face problems like these all by yourself. We, the counselors at Voice Therapy, having an 80% repeat client rate, will counsel you on any problem with our whole heart.
